

I am pleased that you are considering Columbia Christian Schools. Our purpose is:

"To provide a quality education in an environment which fosters a love for Jesus Christ. Columbia's objective is to help its students discover and develop their God-given potential so they may become responsible and productive members of the church and society. Columbia tries to motivate each student to learn and mature as a Christian."

At the core of our school are **daily bible classes, chapel** and an emphasis on developing a love for Jesus. We are small enough to give each student individual attention yet large enough to offer a diverse curriculum. Academics are always important, but **art, physical education, music, athletics, drama, foreign languages**, and other non-academic activities are also considered to be an important part of a well-rounded education program.

I hope you and your child(ren) will be able to visit our school. School is about relationships with teachers, fellow students, administration, staff, and parents of their friends. I believe that when you visit, you will feel the care and concern that we have for one another.

We do have high academic and behavioral expectations, so we are not able to admit every student who may want to attend. Students who are admitted must have a desire to attend Columbia Christian and meet various qualifications. Below is an outline of things that must be done to complete registration:

- **Interview with an administrator**
- **Entrance Test - \$35 fee**
- **Registration forms are completed and fees paid**
- **Immunization forms are updated and in the office**
- **Other information that may be required by the administration**
- **Approval from the administration for admittance**

May God be with you and your decisions. Please call for any additional information.

Sincerely,

Joel Davis, Superintendent
